

Safety Planning Guide

Practical personal and digital safety checklist

Immediate Safety

- Keep emergency contacts ready and reachable.
- Share location with a trusted person when needed.
- Identify nearby safe places before travel.
- Keep transport and hotline numbers accessible.
- Use SOS only when there is urgent, active danger.

Digital Safety

- Enable two-factor authentication on key accounts.
- Use strong, unique passwords.
- Avoid unknown links and suspicious attachments.
- Review privacy permissions regularly.
